Description

Amazon Recruitment 2024

Data Recovery Specialist (Remote)

Do you ever worry about losing irreplaceable data? At Amazon, we understand the importance of safeguarding critical information. Our mission is to be Earth's most customer-centric company, and that extends to ensuring the security and accessibility of our data and the data of our partners.

This is where you come in! We're seeking a talented Data Recovery Specialist to join our growing team and play a vital role in protecting valuable information.

This remote position allows you to contribute to Amazon's success from the comfort of your own home office. As a Data Recovery Specialist, you'll be responsible for implementing and maintaining robust data recovery processes. You'll work collaboratively with a team of experts to ensure that critical data is always protected and readily available in the event of an incident.

Why Join Us?

This role offers a unique opportunity to:

- **Make a real impact:** Your work will directly contribute to Amazon's commitment to data security and customer satisfaction.
- **Develop your skills:** You'll gain valuable experience in the latest data recovery technologies and best practices.
- **Work in a dynamic environment:** Be part of a fast-paced and innovative

Amazon Jobs Near Me

Key Responsibilities

As a Data Recovery Specialist, you'll be responsible for a variety of tasks, including:

- Developing and implementing data recovery plans and procedures.
- Utilizing data recovery software and tools to recover lost or corrupted data.
- Diagnosing the cause of data loss and recommending solutions.
- Documenting data recovery processes and procedures.
- Maintaining data backups and ensuring their integrity.
- Staying up-to-date on the latest data recovery technologies and best practices.
- Working collaboratively with other teams to ensure seamless data recovery operations.
- Following established security protocols and data privacy regulations.

Required Skills and Qualifications

To be successful in this role, you should possess the following qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum 1-2 years of experience in data recovery or a related field (freshers with strong academics will also be considered).
- Strong understanding of data storage technologies (e.g., RAID, SAN, NAS).
- Proficiency in data recovery software and tools.
- Excellent analytical and problem-solving skills.
- Strong communication and collaboration skills.
- Ability to work independently and as part of a team.

Experience

This role is open to both experienced data recovery professionals and talented individuals with a strong academic background and a passion for technology.
