Requirements and Qualifications

- **Bachelor's degree in Computer Science or a related field:** A degree in Computer Science, Computer Engineering, or a related field is required.
- **Programming skills:** Proficiency in one or more programming languages, including Swift, Objective-C, Java, and C++.
- **Software development experience:** At least 2 years of experience in software development, with a focus on mobile or desktop applications.

- **Strong problem-solving skills:** Ability to analyze complex problems, identify root causes, and develop effective solutions.
- **Excellent communication skills:** Ability to communicate technical information to non-technical stakeholders, and collaborate effectively with cross-functional teams.

Nice to Have

- **Experience with Apple development frameworks:** Familiarity with Apple development frameworks, including UIKit, Core Data, and Core Animation.
- **Knowledge of Agile development methodologies:** Experience with Agile development methodologies, including Scrum and Kanban.
- **Cloud-based development experience:** Experience with cloud-based development platforms, including AWS and Azure.
