Description

Google Recruitment 2023

As a Front-End Web Developer, you will be responsible for creating visually appealing and user-friendly websites and web applications. You will collaborate with designers and back-end developers to implement the user interface and ensure seamless functionality. Your expertise in HTML, CSS, and JavaScript, along with your attention to detail and passion for creating exceptional user experiences, will contribute to the success of our web development projects.

Google Careers

Responsibilities:

1. Collaborate with designers and back-end developers to translate design mockups and wireframes into functional web pages.
2. Write clean, well-structured HTML, CSS, and JavaScript code to implement the user interface and ensure cross-browser compatibility.
3. Optimize websites and web applications for maximum speed and scalability.
4. Ensure the responsiveness and mobile-friendliness of websites and web applications across different devices and screen sizes.
5. Implement and customize front-end frameworks, libraries, and tools to enhance development efficiency and user experience.
6. Conduct thorough testing and debugging of front-end code to identify and resolve any issues or errors.

Google Jobs Near Me

Qualifications:

1. Bachelor's degree in computer science, web development, or a related field (relevant experience may substitute for education).
2. Proven experience as a front-end web developer, with a portfolio showcasing your work.
3. Strong proficiency in HTML, CSS, and JavaScript, with a solid understanding of responsive design principles.
4. Familiarity with front-end frameworks and libraries such as Bootstrap, React, or Angular.
5. Experience with version control systems (e.g., Git) and front-end build tools (e.g., webpack, Gulp).
6. Knowledge of web accessibility standards and best practices.
