Description

HCL Recruitment 2024: Build the Future with Us (Full Stack Developer)

Do you thrive in a collaborative environment where innovation is valued? Are you passionate about creating user-centric web applications? If so, then a career at HCL as a Full Stack Developer might be the perfect fit for you!

HCL is a leading global technology company that helps businesses of all sizes transform and thrive in the digital age. We bring together a diverse and talented workforce to create cutting-edge solutions that solve complex problems.

HCL Jobs Near Me

We're looking for a talented and motivated Full Stack Developer to join our team and play a key role in building the next generation of web applications. In this role, you'll have the opportunity to work on a variety of exciting projects, from concept to completion. You'll collaborate with designers, product managers, and other developers to create user-friendly and feature-rich applications.

Job Summary

As a Full Stack Developer at HCL, you'll be a jack-of-all-trades, working on both the front-end (user interface) and back-end (server-side) of web applications. You'll be

```

Key Responsibilities

- Participate in all stages of the software development lifecycle, from planning and design to development, testing, and deployment.
- Develop and maintain the front-end of web applications using HTML, CSS, and JavaScript frameworks like React or Angular.
- Develop and maintain the back-end of web applications using server-side technologies like Java, Python, or Node.js.
- Design and implement APIs (Application Programming Interfaces) to connect different parts of the application.
- Write clean, maintainable, and well-documented code.
- Collaborate with designers, product managers, and other developers to ensure that applications meet user requirements and business objectives.
- Test and debug applications to identify and resolve issues.
- Stay up-to-date with the latest web development technologies and trends.

Required Skills and Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum of 2+ years of experience as a Full Stack Developer (or relevant experience for freshers).
- Strong understanding of front-end and back-end development concepts.
- Proficiency in HTML, CSS, and JavaScript.
- Experience with a JavaScript framework like React or Angular (a plus).
- Experience with a server-side technology like Java, Python, or Node.js (a plus).
- Experience with relational databases (e.g., MySQL, PostgreSQL) (a plus).
- Strong problem-solving and analytical skills.
- Excellent communication and collaboration skills.
- Ability to work independently and as part of a team.

Experience

This role is open to both experienced Full Stack Developers and talented freshers with a strong foundation in computer science and a passion for web development. We encourage recent graduates to apply!
