Infosys Recruitment 2023

As an Implementation Specialist, you will be responsible for successfully onboarding and implementing our company's products or services for our clients. You will work closely with clients to understand their specific needs, configure and customize the products or services, and provide training and support during the implementation process. Your expertise in project management, technical skills, and customer service will contribute to ensuring a smooth and efficient implementation experience for our clients.

Infosys Jobs Near Me

Responsibilities:

1. Collaborate with clients to gather and analyze their requirements, objectives, and workflows to develop an implementation plan tailored to their needs.
2. Configure, customize and integrate our products or services according to client specifications, ensuring compatibility and optimal functionality.
3. Conduct product demonstrations and training sessions for clients to educate them on the features, functionalities, and best practices of the implemented solution.
4. Provide guidance and support to clients throughout the implementation process, addressing any questions, concerns, or technical issues that may arise.
5. Manage project timelines, milestones, and deliverables to ensure timely and successful implementation.
